Overview

ADVANCING AND PROTECTING YOUR REPUTATION

Professional service organizations face a highly competitive business landscape with unique legal challenges. Drawing on the broad experience across our firm, we counsel a diverse range of professional service firms, including law firms, accounting firms, engineering and architectural firms, real estate agents and brokers, marketing agencies and business consultants.

Our attorneys handle both transactional and litigation matters in an efficient and cost-effective manner. We represent clients in mergers and acquisitions, business restructuring, succession planning, corporate governance, intellectual property matters and employee training. We also handle malpractice claims, government investigations, partnership and employment disputes and alleged violations of codes of professional conduct. Above all, we know the value of reputation and will aggressively defend against actions designed to tarnish this critical asset.
